

## ASM Lab Furniture System

*Our line of lab furniture* is manufactured in heavy gauge material and reinforced at stress points for extra rigidity making it extremely durable. The doors and drawers are well fitted with double-pan sound deadening construction and finished in a high quality polyester based coating. This coverage provides excellent chemical resistance and durability for every day laboratory use.

*ASM offers a complete line* of base cabinets with a wide variety of doors and drawers in a number of configurations to suit your needs. In addition there are special purpose base cabinets available such as sink and acid storage units.

Wall Case

*ASM lab furniture line also includes Wall and Counter Mounted Cases, Floor Cases & Tables.*

*ASM began metal fabrication* based on manufacturing laboratory furniture. This high quality furniture is a result of over twenty years of manufacturing experience in the industry.

*ASM uses standard lab system components*, maintains a diverse product line and has the ability to meet your custom requirements. This makes ASM lab furniture strong enough to handle your demanding environment and flexible enough to adapt to your productivity needs.

*We adhere to strict standards in our fabrication process to ensure that all units are manufactured with consistency in order to guarantee quality products.*

*Designed for strength & durability ASM uses a high quality, full extension drawer rail.*
