

## Millennia Bench System

Work Bench Shown with:  
Optional Hanging Bench Drawer

M-4Dr

**The Millennia Bench System** is a versatile, modular system that is designed to endure the harshest work environments, while maintaining its esthetically pleasing design. Millennia offers a number of standard features which set it apart from conventional bench systems.

**Reinforced Doors** close on a double roller catch.

**Pedestal Base** is detachable allowing bench height to be customized.

**The Bench Leg** is manufactured of a heavy gauge and is 4" w for greater strength & stability.

**All Components are Electro-Statically Coated** in a high quality thermosetting paint for greater durability and refinement.

**All Doors & Drawers** are pre-punched for the addition of locks at any time.

**Cabinet Bodies** are of an all welded construction.

**Optional Adjustable Channel** allows work surface height to be customized to your requirements.

### Options Available:

- Hanging Bench Drawer
- Drawer Dividers
- Locks
- Wheels
- Lower shelves
- Steel Tops

M-1D-1 w/optional casters

*Drawers run on smooth 120 lb capacity full extension rails for easy operation and full accessibility.*

*All drawers come with full width, polished stainless steel handles for added durability and easy cleaning. All drawers are pre-punched to accept optional drawer dividers.*

**Millennia's Modular Body Design** allows for easy conversion into several drawer & door configurations.
