Over 30 Years of Quality Metal Fabrication

# Constable Lockers

The innovative design feature built into our Constable Locker line makes ASM the bench mark for the industry.

## Locker Specification

### Welded Body

Manufactured from 16 ga. crs prime steel all body parts are tightly fitted die-formed components spot welded and seam welded on all joints to form a strong rigid integral unit. All welds are ground smooth and buffed to allow a smooth finish.

### Door

Double pan construction consisting of a 16 ga. Crs outer panel welded at a tightly fitted 24 ga. Inner panel with no less than 8 welds resulting in a strong rigid unit attached to the body using a 16 ga continuous hinge and close on two rubber grommets.

### Shelves

Manufactured from 18 ga crs are flanged on all sides and a channel flanged on the front for extra rigidity. Can be perforated for ventilation.

### Drawers

All Drawers are manufactured from 20 ga crs, components tightly fitted and welded together to form a rigid unit. All drawers run on smooth 100lb capacity full extension ball bearing drawer slides for easy operation. All slide components are chrome plated for lasting durability.

### Handles

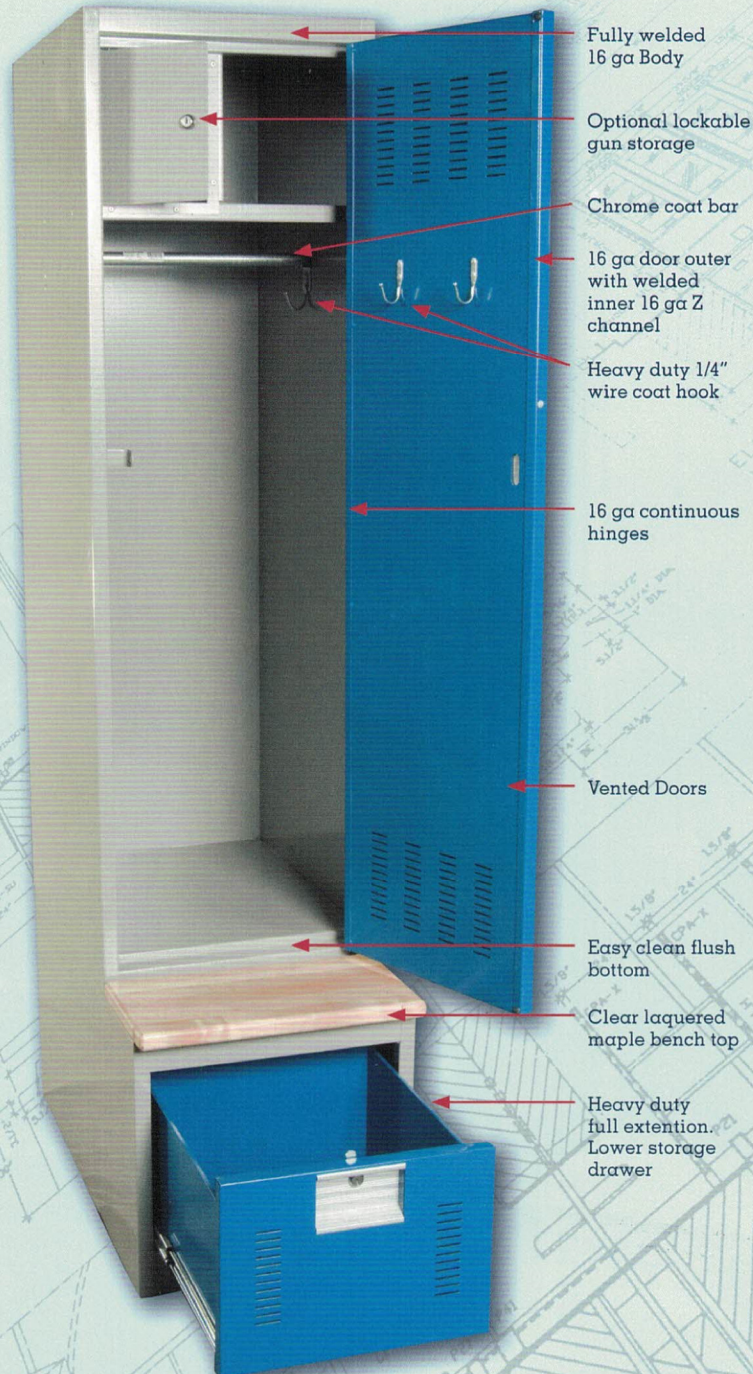

All handles are manufactured from extruded aluminum and finished in a clear anodized coating for lasting durability

### Powder Paint Finish

All components are cleaned and treated with a multistage iron phosphate process and coated with a high quality powder paint with a choice of no less than 16 colors.

### Bench

Built in bench is laminated maple with all edges sanded and rounded finished with a clear durable lacquer coating.

## Standard Features

- 16 ga double pan doors
- 16 ga welded body
- Coat bars and hooks
- Lower storage drawer
- Fully assembled units

# ASM Evidence Handling Locker System

## Designed for Versatility / Built for Durability

*The innovative features built into our evidence lockers make ASM the benchmark design for the industry. High quality, heavy duty Hardware complete the package to ensure years of trouble free service.*

### Features that set ASM above the rest!

#### Cabinet Body

Constructed entirely of 16ga CRS, the cabinet body is fully assembled and shipped complete.

#### Heavy Duty Hinges

These high quality Euro style hinges allow the door to remain open when depositing, and are self closing when engaged.

Hinges are concealed behind the door to prevent tampering.  
\* Rear pass through doors have welded continuous hinges.

#### 14ga Welded Base

#### Doors

Telescoping 16ga inner and outer panels are fitted and welded together on all corners to form an extremely rigid unit. Self closing on rubber silencer's all doors c/w number plates and lock instruction.

#### Push Button Deposit Lock

Allows for keyless deposit, this 9 pin RPT lock is pick proof and c/w a hardened drill proof core for extra security. The cast aluminum handle is recessed for aesthetics and safety.

#### Finish

All components are ground smooth and polished. Then cleaned and phosphate coated before receiving a high quality, durable powder coat finish.

- \*ALL corners are welded and ground smooth.
- \*Inner and outer door panels are 16ga.
- \*All doors self close on rubber silencers.

- \*Pick and drill proof 9 pin RPT locks provide superior security.
- \*Recessed handles.

\*RPT (Radial Pin Tumbler) Lock.
